

It's a Hat-trick! IndiGo Recognized as World's Youngest Aircraft Fleet 2025 by ch-aviation for Third Consecutive year

National, February 28, 2025: IndiGo, India's preferred airline, has been awarded the prestigious title of 'World's Youngest Aircraft Fleet 2025' by ch-aviation in the category of airlines operating 100+ aircraft, a testament to its commitment to operational efficiency. IndiGo has received this award for the third consecutive year in this category. Furthermore, IndiGo has been ranked 4th in Asia for maintaining a modern and efficient fleet with an average aircraft age of just 4.38 years. Currently, IndiGo has a fleet of over 400 aircraft, serving over 125 destinations.

Pieter Elbers, Chief Executive Officer, IndiGo said, *"We are humbled to be recognized as the airline with the World's Youngest Aircraft Fleet 2025 by ch-aviation. This recognition reinforces IndiGo's steadfast commitment to operate on a modern, fuel-efficient fleet that prioritizes reliability, efficiency, and sustainability, as we expand towards new heights and across new frontiers. We are dedicated to offer seamless and efficient travel to our esteemed customers."*

Mr. Thomas Jaeger, the CEO of ch-aviation, said of the Award: *"At ch-aviation, we recognize airlines that prioritize fleet modernization and sustainability. By maintaining a young and fuel-efficient fleet, IndiGo continues to drive innovation while significantly reducing CO₂ emissions. We are proud to honour IndiGo with the World's Youngest Aircraft Fleet 2025 award in the 100+ aircraft category, marking their outstanding commitment to operational efficiency and environmental responsibility."*

ch-aviation established the **Youngest Aircraft Fleet Award** to honour airlines worldwide that recognize the importance of investing in modern fleets. By incorporating next-generation aircraft, these airlines contribute to reducing CO₂ emissions in the aviation sector and enhance fuel efficiency. This award is a testament to innovation by the airlines, dedication to environmental responsibility, and efforts to shape a brighter future for air travel.

ch-aviation maintains one of the industry's most extensive and detailed commercial and business aviation databases, enabling the assessment of the youngest aircraft fleets. This vast intelligence covers over 110,000 aircraft, more than 13,500 active airlines, 2,900 aircraft owners, and more. To determine the award winners, ch-aviation considered only active commercial operators—both passenger and cargo—with at least five aircraft, so as the active business jet operators. A consolidated AOC list was used for airline groups with multiple Air Operator Certificates (AOCs).
